課程概述

This course aims to develop students' general English proficiency at the B2 level, with an emphasis on improving reading and writing skills. Approximately 50% of the course content is related to academic contexts. The aim of this course is to enhance students' English reading abilities and develop students' ability to write well-developed paragraphs. Students will read a variety of text styles with enhanced fluency following coherent and effective use of reading strategies. Students will also actively engage in extensive reading with a critical perspective. For writing, students will build their paragraph writing skills and eventually learn the ability to write essays.

課程目標

By the end of the course, students will learn to:

build vocabulary for reading and writing

read carefully to understand text

take and organize notes for different reading and writing tasks

outline writing tasks

summarize, paraphrase, and respond to reading materials in well-structured writing and clear arguments

express ideas in clear and coherent English, using a range of vocabulary, accurate grammar, effective transitions, and varied sentence structures that demonstrate an appropriate and consistent style for the given context and audience.
